

# The value of innovative social and affordable housing investment

**Tracy Longo**

Hones for Homes

A background image of a city skyline, likely New York City, with a bridge and water in the foreground. The image is overlaid with a semi-transparent green filter. A white geometric shape is on the left side of the slide.

# **Homes for Homes: a sustainable funding solution to increase the supply of social and affordable housing**

Tracy Longo

National Operations Manager, Homes for Homes

---

## A lasting legacy

- › Complimentary to any existing policy or initiative.
- › CHPs need funds to increase their supply of housing stock.
- › Homes for Homes is a reliable, sustainable and ongoing funding stream.
- › It is not a loan. This is grant funding.

---

## High impact

Independent grant making.

Robust governance.

- › \$1.14m already granted
- › 10 projects funded which will house 53 people.
- › A further \$140,000 to be granted next month across NT and QLD.
- › A new grant round will open in 2022.
- › We encourage CHPs to apply for funding.
- › On track to raise >\$1 billion.

Homes for Homes granted \$120,000 to Women's Property Initiatives to build four units which are housing women whose assets render them ineligible for social housing. These women were at risk of becoming homeless.

---

## A community solution

### You can contribute

- › Consider registering housing stock.
- › Any homeowner or renter can participate.
- › Apply for funds when grant rounds open.
- › Subscribe to our email list, be the first to know when grant rounds open.
- › [www.homesforhomes.org.au](http://www.homesforhomes.org.au)
