

AHURI DISCUSSION SERIES

As private sector interest in delivering housing solutions continues to grow, AHURI is pleased to present a panel discussion and networking opportunity showcasing innovative projects delivering social and affordable housing in Australia. The panel discussion will bring together a range of perspectives, including finance and investment, project delivery, community housing provision, and policy and planning, with an emphasis on lessons learned and insights gained in delivering these projects.

This inspiring panel discussion will involve industry representatives and a facilitated audience Q&A, followed by networking drinks. It is a great opportunity to partner with AHURI, exposing your brand to an extremely engaged and committed audience, which will be widely attended by all interested in delivering social and affordable homes.
