Home and Health Program

Funded by Brisbane City Council, the program brings together BHC, Bric Housing and OneBridge to deliver place-based nursing care to community housing residents.

Dedicated to a better Brisbane

1 Place-based nursing clinics

Providing health care including health assessments, wound and medication support, health education, referrals and care navigation.

2 Funding in partnership with BCC

$157,184 over three years through Brisbane City Council's Pathways out of Homelessness Grant Program, supplemented by a $25,000 annual contribution from the BHC Impact Fund.

3 Strategic outcomes

Bringing housing and healthcare together to enable earlier intervention, improve access to ongoing care, and strengthen tenancy sustainment.

Home and Health Outcomes over 3 years

Year	Individual Residents Supported	Occasions of Support
2023-24	236	1,229
2024-25	276	1,612
2025-26	212	1,289

Types of care provided: predominantly health education, primary care, mental health support, and medication management.

Care in action

Bringing care closer to home for residents

- **Medication management:** Established safe, sustainable medication routines following hospital discharge.
- **Early intervention:** Identified critical health indicators and coordinated urgent care.
- **Mental health support:** Reconnected a resident with psychological and psychiatric treatment.
- **Harm reduction:** Supported healthier routines and reduced alcohol consumption.
- **Social connection:** Reduced isolation through compassionate engagement and community supports.
